**From North Holland : Philosophy of Information (Handbook of the Philosophy of Science)** brief article outlining the history of greek philosophy from the internet encyclopedia of philosophy philosophy of technology like many domain specific subfields of philosophy such as philosophy of physics or philosophy of biology philosophy of technology is a Philosophy of Information (Handbook of the Philosophy of Science):

Information is a recognized fundamental notion across the sciences and humanities which is crucial to understanding physical computation communication and human cognition. The Philosophy of Information brings together the most important perspectives on information. It includes major technical approaches while also setting out the historical backgrounds of information as well as its contemporary role in many academic fields. Also special unifying topics are high light. About the Author Dov M Gabbay is Augustus De Morgan Professor Emeritus of Logic at the Group of Logic Language and Computation Department of Computer Science King's College London. He has authored over four hundred and fifty research papers and over thirty r
