and african actions during the colonial period affected the resources and institutional settings for subsequent economic

Colonial Urban Development: Culture, Social Power and Environment:

The Study focuses on the social and more especially the cultural processes governing colonial urban development and develops a theory and methodology to do this The author demonstrates how the physical and spatial arrangements characterizing urban development are unique products of a particular society to be understood only in terms of its values behaviour and institutions and the distribution of social and political power within it Nowhere is this more a
