**From Cambridge University Press : The Cambridge History of Science, Volume 7: The Modern Social Sciences**  
the history of the social sciences begins in the age of enlightenment after 1650 which saw a revolution within natural philosophy changing the basic framework by science in a broad sense existed before the modern era and in many

historical civilizations modern science is distinct in its approach and successful in its results The Cambridge History of Science, Volume 7: The Modern Social Sciences:

Forty two essays by authors from five continents and many disciplines provide a synthetic account of the history of the social sciences including behavioral and economic sciences since the late eighteenth century The authors emphasize the cultural and intellectual preconditions of social science and its contested but important role in the history of the modern world While there are many historical books on particular disciplines there are very few about the social
