## Social Psychology: Intraindividual Processes:

This volume on intraindividual processes is one of a set of four handbooks in the social psychology field and covers social cognition attitudes and attribution theory. Includes contributions by academics and other experts from around the world to ensure a truly international perspective. Provides a comprehensive overview of classic and current research and likely future trends. From the Back Cover: This authoritative handbook provides a cutting edge overview of classic and current research as well as an assessment of future trends in the field of intraindividual processes. After outlining a set of integrative perspectives — evolution, social cognitive, social learning, and social information processing — the book goes on to examine the social and cognitive processes that underlie intraindividual processes.
