4 of 5 review helpful Less Philosophy More Physics please By Martin Green This work is a very important and badly needed piece of research Bitbol chronicles Schroedinger s attempts to promote the wave picture versus the particle probability collapse interpretation of the Copenhagen School Schroedinger was hounded and ridiculed by the Born Heisenberg Lorentz cabal until he finally gave in even teaching his own students t This book is the final outcome of two projects My first project was to publish a set of texts written by Schrodinger at the beginning of the 1950 s for his seminars and lectures at the Dublin Institute for Advanced Studies These almost completely forgotten texts contained important insights into the interpretation of quantum mechanics and they provided several ideas which were missing or elusively expressed in SchrOdinger s published papers and books of the same perio
