From Brand: SAGE Publications, Inc : Encyclopedia of Gender in Media gender role is the idea that people should behave in certain ways because of their gender as an example it was traditionally the role of the man to earn money and parents treatment of sons and daughters may have an influence on some aspects of their gender development Encyclopedia of Gender in Media:

0 of 0 review helpful Excellent Research Book By pam This book played an essential role in my senior thesis paper The information is current includes timelines and suggested readings combined with brief bios I would like to add that

from a student's perspective it is well written and easy to read. The media strongly influences our everyday notions of gender roles and our concepts of gender identity. The Encyclopedia of Gender in Media critically examines the role of the media in enabling, facilitating or challenging the social construction of gender in our society. The work addresses a variety of entertainment and news content in print and electronic media and explores the social construction of masculinity as well as femininity. In addition to representation, this unique view of the role of mass media from the 19th through the 21st centuries will be of interest to libraries supporting media communications, advertising, marketing and public relations programs. Laurie Selwyn Library Journal 08/01/2012
