**By Theresa Cheung : The Element Encyclopedia of Vampires: An A-z of the Undead** a list of mythical creatures and legendary beasts organized by type includes definitions and pictures plus books types of creatures palgrave communications is an open access online only journal dedicated to publishing high quality original research across all areas of the humanities and social The Element Encyclopedia of Vampires: An A-z of the Undead:

1 of 1 review helpful Plagirism aside this book is just not very good and anyone who wants a good book skip this one and go for the Melton Book By Aslinn Dhan Dragonhawk I bought this book to add to my vast collection of Supernatural lore and I was bitterly disappointed I read a book that was repetitive for the sake of filling a page requirement and one that was thinly researched and left out key entries most notable the Throw open the curtains and shed daylight upon the dark depths of the vampire story This definitive A to Z encyclopedia contains tales of mortal blood drinkers vampiric legends from cultures around the world tips on how to find identify and destroy a vampire the vampire family tree including ghosts witches and werewolves and some real life Van Helsing among the famous vampirologists and vampire hunters Permeating popular culture from the nineteenth century
