8 of 8 review helpful Superb By Lorraine P Zigman Several years ago I watched a documentary regarding Al Jazari

and his inventions which were WAY ahead of his times I was intrigued with the futuristic things he created and so purchased this book so I could peruse it at my leisure soaking up the wonders of them and the original drawings he made For anyone with a mechanical or technical bent this is a superb book which To judge by the dictum of al Ja i d A D 869 Wisdom has descended upon these three the brain of the Byzantine the hands of the Chinese and the tongue of the Arab in the great age of the Language Notes Text English Arabic translation
